EXPERIENCE

Strong sales background 6+ years in multiple industries, experienced risk taker and self-starter

- Vatterott – Enrollment Coordinator
- Verizon – Sales Representative
- Nerdy Neighbor – Owner

Demonstrated skills:

- **Townify** – Node.js, Express, Sequelize, Handlebars
  Townify brings communities together to help mitigate unemployment by introducing a craigslist-esk barter and trade system by adding value to skilled and unskilled peoples time.

- **MTG-News** – Mongodb, Axios, Cheerio, Node.js
  CRUD app that scrapes MTG Archives and allows users to comment on individual articles.

- **react-comp-boiler** – Node.js, Minimist
  Light CLI tool used to automate both the creation and importation of React components. (mimics Angular's `ng generate`)

- **Tic-Tac-Toe** – Firebase, jQuery, HTML, Bootstrap
  A multiplayer Tic-Tac-Toe game using firebase as a live database that supports player chat.

- **LIRI** – Underscore, Inquirer, Moment, dotenv
  A CLI app that utilizes spotify, IMDB and bandsintown API's to allow user to store and retrieve information.
